A History of Holiday Lights

It's the holiday season, and despite the sometimes dreary weather, everything is sparkling with holiday cheer.

Holiday lights began as candles to help illuminate the ornaments on Christmas trees. Around 1915, glass balls and lanterns started replacing candles as the main form of illumination. The invention of the light bulb and electricity revolutionized Christmas tree decorating, evolving into the strings of lights that we use to decorate our homes and trees today. There is now an amazing selection of holiday lights available, with LED lights ushering in a new era of brightness and safety.

Stop by the store for all your holiday decorating needs. We have beautiful decorative greenery in our Outdoor Garden Center, as well as indoor décor, and of course, lights! Our Celebrations LED holiday lights in a variety of sizes and colors are on sale now!

Geneva Ace Hardware would like to wish you and your family a warm, wonderful and bright holiday season!
